CITY OF DETROIT'S RESPONSE IN OPPOSITION TO SYNCORA'S MOTION TO EXCLUDE THE TESTIMONY OF JOHN W. HILL

Syncora Capital Assurance Inc. and Syncora Guarantee Inc. (together, "Syncora") concedes that the City's CFO, John W. Hill, may offer the vast bulk of his testimony, including his fact testimony regarding the City's Consensus Revenue Conference Report that he and his staff compiled. *See* Syncora Motion to Exclude ¶ 1. Syncora nonetheless seeks to exclude Mr. Hill's expert testimony on two discrete issues: (1) that revenue estimates in the baseline Ernst & Young (EY) forecast for FY 2014-2016 are "consistent with" estimated revenues in the Consensus Revenue Conference Report and (2) that certain estimates of projected expenses and revenues for the restructuring and reinvestment initiative are "reasonable." *Id.* ¶ 1. Syncora fundamentally misunderstands Mr. Hill's opinions and ignores his knowledge, skill, and prior experience as a reliable basis for his opinions. The Court should deny Syncora's Motion and admit Mr. Hill's reliable and helpful expert testimony.

I. BACKGROUND

1. Mr. Hill is the Chief Financial Officer ("CFO") for the City, appointed by the City's Emergency Manager (the "EM") in November 2013. Mr. Hill reports directly to the EM and oversees a staff of over 250 City employees and outside advisors. Mr. Hill also coordinates with, among others, the City's financial and operational restructuring advisors, Ernst & Young LLP ("EY") and Conway MacKenzie, Inc. ("Conway"). As CFO, Mr. Hill oversees, manages, and controls all financial and budgetary aspects of the City, and few people know the City's finances better than Mr. Hill does.

2. Mr. Hill has over 30 years of professional experience in accounting, auditing and financial matters, including significant management expertise in public sector accounting, municipal budgeting, and restructuring government operations and finances. Hill Dep. at 18:6 - 23 (Attached hereto as Exhibit A).

3. Mr. Hill previously played a leading role in restoring financial and operational vitality to the District of Columbia ("DC") when it was experiencing a severe fiscal crisis. Starting in the mid-1990s, while serving as a Director of the Financial Management Policies and Issues, Accounting and Information

-2-

Management Division, of the United States General Accounting Office (the "GAO"), Mr. Hill was the GAO's chief witness before Congress regarding the DC's financial and operational crisis. Hill Dep. at 15:23 – 16:12. He was intimately involved in the research, development, and implementation of the DC Financial Control Board (the "DC Control Board"), which was created by President Clinton on April 17, 1995. The purpose of the DC Control Board was to eliminate DC's budget deficits and cash shortages, assist DC in restructuring its government operations to achieve more efficient and effective service delivery, and ensure DC's economic viability. *See generally* District of Columbia Financial Responsibility and Management Assistance Act of 1995, Pub. L. No. 104-8, 109 Stat. 97.

4. Mr. Hill served as the DC Control Board's first Executive Director from 1995 through 1999. In that capacity he was responsible for overseeing essentially all aspects of DC's finances and operations. Hill Dep. at 204:23 – 205:12. He also managed a staff of 35 employees, testified before Congress numerous times, and coordinated his efforts with the City's elected leaders, Control Board members, members of Congress, the Office of the President, and other business and community leaders. Among his responsibilities was supervising the development of DC's forecasting, budget restructuring and implementation, and service delivery revitalization. *See generally* Hill Dep. at 20:15 – 18; 22:13 – 18.

-3-

5. Mr. Hill is engaged in many of the same activities and analyses today. Hill Dep. at 20:15 - 18; 22:13 - 18; 192:10 - 17; 314:12 - 17. Mr. Hill considers his prior experience as a significant component of his testimony and, in providing his opinions and analysis as a witness in this proceeding, he "brings all of [his] knowledge about those other experiences and the current situation in Detroit to bear."¹ Hill Dep. at 15:18 - 20.

6. The City intends to offer Mr. Hill as an expert in municipal finance and restructuring. As part of the City's arguments in support of the feasibility of the City's proposed Plan for the Adjustment of Debts (the "Plan"), the Court will need to hear expert testimony regarding the City's budget formulation and projection process, EY's and Conway's involvement in that process, and whether the City can afford to fund normal municipal operations, make the payments to creditors contemplated under the Plan, and invest in the City so that it provides adequate services to its residents and businesses.

¹ Mr. Hill will also testify about his private sector experience relevant to the formation of his opinions. For example, in addition to serving as Detroit's CFO, Mr. Hill is also on the Board of Directors of CoStar Group (NASDAQ – CSGP) ("CoStar") and serves as the Chair of CoStar's Audit Committee. In this role he is considered an "audit committee financial expert" as defined by regulations promulgated by the Securities and Exchange Commission based on, among other things, his experience, qualifications, and skills. As Chair of the Audit Committee Mr. Hill assists the CoStar Board in fulfilling its oversight responsibilities as to accounting policies, internal controls, audit activities and reporting practices.

II. ARGUMENT

- 7. As it pertains to this motion, Mr. Hill will offer three expert opinions:
 - (a) The City will have projected revenues and expenses for its 2014, 2015, and 2016 fiscal years as set forth in its March 18, 2014 Revenue Consensus Conference Report (the "RCCR"), attached to Syncora's Motion to Exclude at Exhibit 6D. The RCCR is a standard process used by the City and other Michigan municipalities to project their financial position. In this case, the conclusions of the RCCR also were reviewed and unanimously accepted by the Detroit Financial Advisory Board.
 - (b) The assumptions underlying the RCCR are reasonable.
 - (c) The estimates made by the RCCR are consistent with the EY baseline scenario revenue projections made by EY for those years.

8. Syncora's attack is an almost-studied misconstruction of Mr. Hill's expert report and opinions. Syncora argues that Mr. Hill has no reliable basis to testify as an expert on EY's forecasts (or whether those forecasts are consistent with forecasts he oversaw the development of as the City's CFO and outside of EY's work). Syncora Motion at ¶ 1. Syncora also complains that Mr. Hill "improperly vouches" for the EY expert opinions and thus is providing cumulative, duplicative, and irrelevant evidence. Syncora Motion at ¶ 2.

9. At the outset, it is clear that Mr. Hill is an expert in this area. He has had years of private and public sector work, including relevant experience at the GAO, his years as the Executive Director of the DC Control Board, and his time as the City's CFO. It would be difficult to locate a witness with greater experience in managing the finances of a distressed city.

10. As an expert, Mr. Hill has the latitude to determine what facts and evidence are relevant to him in reaching his opinions. "The Federal Rules of Evidence allow an expert great liberty in determining the basis of his opinions." *United States v. L.E. Cooke Co., Inc.*, 991 F.2d 336, 342 (6th Cir. 1993). And, moreover, "where an expert's testimony amounts to 'mere guess or speculation,' the court should exclude his testimony, but where the opinion has a *reasonable factual basis*, it should not be excluded." *Id.* (emphasis added). Syncora's limited citations to Mr. Hill's deposition transcript omit passages of his deposition testimony where Mr. Hill testified that he brought his knowledge and experience to bear to formulate his opinions, conclusions, and analysis here.

11. More basically, Mr. Hill's testimony will not constitute "improper vouching" for EY's forecasts. Instead, his opinion is that the RCCR – which used a fundamentally different methodology than EY's – can be compared on an applesto-apples basis and reached essentially the same result.

12. Finally, Mr. Hill's opinion testimony is relevant to the feasibility of the Plan. As the City's CFO, Mr. Hill will be responsible for implementing the Plan and ensuring there is enough money for the obligations the City will undertake in the Plan. It is difficult to see how the testimony of the City's CFO would not be highly relevant to Plan confirmation.

A. Mr. Hill's Opinions Are Reliable And His Qualifications Provide A Foundation To Opine On the Plan, Its Projections, And Its Feasibility

13. Citing to a out-of-context snippet from Mr. Hill's deposition, Syncora argues that Mr. Hill cannot comment on the reasonableness of EY's forecasts because he has "not personally done any economic forecasting," Syncora Motion ¶ 13, and cannot "explain how the figures in his report were calculated," Syncora Motion. at ¶ 14. Syncora is wrong and misrepresents the record.

14. Mr. Hill's opinions regarding the reasonableness of EY's forecasts are premised upon his experiences, which include financial forecasting:

Q. Have you ever done forecasting for a city?

A. Yes, I have done.

Q. And was that the District of Columbia?

A. Yes.

. . .

Q. Have you ever forecast tax revenues before?

A. Yes.

Q. And was that at the City of – the District of Columbia?

A. Yes.

...

Q. Okay. Does the City do any forecasting of expenditures?

A. Yes. Its budgets are forecasts of expenditures.

13-53846-swr Doc 7126 Filed 08/27/14 Entered 08/27/14 20:43:04 Page 7 of 140

Q. And are those one-year forecasts?

A. No. Those are three-year budgets.

Q. Okay. So the City – the forecasting the City does is it does a three-year forecast of revenue and expenditures in its budget, and it does a three-year forecast of revenues in the consensus revenue estimate?

A. That's not accurate. The City does a three-year forecast of revenues in its - in the revenue consensus and then uses those revenues in its budget and then does a forecast of expenditures in the budget against those revenues.

Hill Dep. at 20:15 – 19; 22:13 – 18; 79:22 – 80:13.

15. As Mr. Hill also indicated in his deposition, he will be able to testify

about the factors and extensive work that went into generating the calculations and

why in his opinion those calculations are reasonable and facilitate the feasibility of

the Plan:

Q. I guess, what are you planning to testify about at the confirmation hearing, if you know?

A. The testimony hasn't been prepared. It really will depend on preparation for confirmation. But in general, whether or not the items under the plan, that is, the restructuring initiatives under the plan, specific restructuring initiatives have the funding that's needed within the plan in order to be able to have them implemented over the time periods that are indicated in the plan. I would testify to that and would – as you know, the plan does not require any borrowings other than the ones that – the two that are in the plan over the first 10 years. And so the question is, are the – are the forecasts in the plans of revenue enough for the City to operate under the plan and also have enough funding to implement the – the Plan of Adjustment items that I'm specifically involved in the plan. So that's –

Hill Dep. at 76:22 – 77:20.

 Mr. Hill's testimony clearly is not based on "mere guess or speculation," and there is little doubt that his testimony will "assist the [court] in understanding the evidence or determining a material fact in question"—the feasibility of the Plan. *Rondigo, L.L.C. v. Casco Twp*, 537 F. Supp. 2d 891, 892
 (E.D. Mich. 2008) (*citing Flanagan v. Altria Group, Inc.*, 423 F. Supp. 2d 697, 699 (E.D. Mich. 2005) and *Daubert v. Merrell Dow Pharm. Inc.*, 509 U.S. 579, 592-93, n. 10 (1993)). Although Syncora remains free to argue with Mr. Hill about his work, "any weaknesses in the factual basis of an expert witness' opinion, including unfamiliarity with standards, bear on the weight of the evidence rather than on its admissibility." *L.E. Cooke Co., Inc.*, 991 F.2d at 342 (*citing Davis v. Combustion Engineering, Inc.*, 742 F.2d 916, 919 (6th Cir. 1984) and *Upjohn Co. v. Rachelle Laboratories, Inc.*, 661 F.2d 1105, 1112 (6th Cir. 1981)).

B. Mr. Hill Is Not 'Vouching' For Other City Experts Nor Is His <u>Testimony Cumulative or Irrelevant</u>

17. As required by section 8-213 of the Detroit City Charter and section 3.1 of the Financial Stability Agreement between the City and the State, each year the City develops revenue estimations for the City's five major revenue sources for the succeeding three fiscal years. These five revenue sources constitute over 60% of the City's annual general fund revenue. Syncora Mot. to Exclude Ex. 6D at POA00538974. As noted in Mr. Hill's expert report, Syncora Mot. to Exclude Ex. 6A, conference participants arrived at their estimations independent of each other and EY. The results of this process were within 1% to 2% of EY's forecasts for the same fiscal years, Syncora Mot. to Exclude Ex 6A at POA00002042. As Mr. Hill testified during his deposition, the purpose of the revenue conference was to identify any "major differences between the Plan of Adjustment and what the conference was projecting" so as to make corrections to the Plan's projections and avoid a situation where EY's forecasts "have a revenue number that's there [but is not] expect[ed] to" be available to the City in the future. Hill Dep. at 307:15 - 308:3.

18. Syncora makes three arguments in an attempt to preclude the City from offering this testimony, all of which fail. First, Syncora believes that Mr. Hill's testimony comparing the revenue estimation conference to EY's forecast "will add nothing beyond the testimony of the experts who actually created" EY's forecasts, thus constituting nothing more than vouching for the City's other experts. Syncora Mot. to Exclude ¶¶ 16 - 17. But this is a mischaracterization of the opinion Mr. Hill would give. Mr. Hill will testify about the methodology he and the other revenue conference participants employed and their conclusions. Since Mr. Hill also knows the methodologies used by EY, he is in a position to testify that the results reached by the two approaches are properly compared and, since EY and the RCCR reached almost the same conclusions, this corroborates the reliability of each approach. Moreover, Mr. Hill has done more than review EY's expert report "from a macro level" – he has worked closed with EY and Conway -10-

13-53846-swr Doc 7126 Filed 08/27/14 Entered 08/27/14 20:43:04 Page 10 of 140

and while they will testify as to *how* their forecasts were created, Mr. Hill will testify as to *why* those forecasts make the Plan feasible from the perspective of the person who will be responsible for implementing the Plan if it is confirmed.

19. The "improper vouching" cases cited by Syncora are inapposite. For example, in *In re James Wilson Assocs.*, 965 F.2d 160, 173 (7th Cir. 1992), the expert testimony was excluded not for improper vouching but because it was hearsay. In *Hartle v. First Energy Generation Corp.*, _____ F. Supp. 2d ____, 2014 WL 1007294, at *13 (W.D. Pa. Mar. 17, 2014), the court excluded the expert testimony because the proposed expert had done no independent analysis, had merely reviewed the other proposed experts' reports and examined their work "from the macro perspective," and was purporting to opine on the credibility of other experts.

20. *Second*, Syncora thinks that the Court is better suited than Mr. Hill to perform the arithmetic necessary to compare the RCCR forecasts with those of EY. *Id.* ¶ 19. This, of course, misses the point. Mr. Hill's testimony would go to the more basic question of whether the two approaches are comparable and whether the results of one do or do not corroborate the other. This meets the threshold that "[e]xpert testimony is relevant...when it will assist the [court] in understanding the evidence or determining a material fact in question." *Rondigo*, 537 F. Supp. 2d at 892; *see also Hartle*, 2014 WL 1007294 at *3 *citing In re Paoli R.R. Yard PCB Litigation*, 35 F.3d 717, 745 n. 8 (3d Cir. 1994) (internal quotations omitted) –11-

13-53846-swr Doc 7126 Filed 08/27/14 Entered 08/27/14 20:43:04 Page 11 of 140

("[t]he standard for fit is not that high."). Mr. Hill's expert testimony meets this threshold.

21. *Third*, Syncora questions the veracity of the RCCR results, suggesting that they were simply another version of EY's own work. However, Mr. Hill's deposition testimony rebuts this argument:

Q. And the purpose of having Ernst & Young in the room was to make sure that the revenue estimates that Ernst & Young did – to make sure that the consensus group didn't adopt revenue estimates that were materially different from Ernst &Young's; correct?

A. No.

Q. What was the purpose of having Ernst & Young, then?

A. To answer questions, if [conference participants] had any questions, of Ernst & Young. But it wasn't to influence the group.

Q. And Mr. Naglick said, quote "EY (Shavi) takes part to keep the group on track with comparisons to Plan of Adjustment. They try to mainly listen to the point of view of participants, but then keep them from taking a totally different view from revenues in the plan." Is that an accurate statement of Ernst & Young's role?

A. Not exactly. They were to explain what was in the plan so that – Ernst & Young's role, they were there to explain what was in the plan so that they would be able to understand what revenues were being projected as part of the plan and what revenues were being projected as part of the budget, because there were revenues in the plan that weren't a part of the budget. So it was more to explain what was in the plan.

• • •

Q. And you wanted to continue the conference so that you could make sure that it was consistent with what the revenue estimates were in the Plan of Adjustment?

A. No.

Hill Dep. at 305:9 – 306:13; 307:10 – 14.

22. Mr. Hill further clarified that the purpose of the revenue conference was to ensure that the City would not be in a situation where revenue numbers were included in the Plan that the City did not expect to be able to realize – thus undermining its feasibility. Hill Dep. at 307:17 - 308:3. Despite Syncora's out-of-context deposition citations, there is no evidence indicating the revenue conference was contrived only to further validate EY's work and Mr. Hill will testify as such.

C. CONCLUSION

23. For the foregoing reasons, Syncora's Motion to Exclude should be denied and Mr. Hill should be able to testify about the feasibility of the Plan from the perspective of the City's revenues, forecasts of certain of its expenses, and its ability to pay for and implement the restructuring and reinvestment programs.

Yes, that's correct. Q. And the GAO testimony, is that was that before Congress or was that someplace else? A. That was before Congress. Q. Can you explain to me what methodology you used in developing the expert opinions that are in your report. How did you go about doing it? A. It's a kind of it's a vague question, because each individual item in the report would have had a different series of so I don't really understand understand the question.

I didn't know Kevyn Orr in D.C. I knew him I knew of him, but I did not know Kevyn Orr in D.C. I didn't actually meet Kevyn Orr until I came to Detroit. Q. Okay. So Kevyn Orr knew of your work in D.C., and that's how he knew to contact you for the CFO job? Is that A. That's not accurate. Q. Maybe you can explain to me again what exactly how was it the relationship, I'm just trying to get at. It sounds like you didn't know Kevyn Orr before you met him recently A. Yeah. Q is that right? A. I did know Kevyn Orr before I came to Detroit. But I came to Detroit to do a project on Grants Management that was funded by a foundation, and that Kevyn Orr's office was actually involved in overseeing that contract. And so that's where I met him. But he knew of my reputation from Washington, D.C.

But what was the \$100 million of potential additional blight money A. It was a grant I think there was a there were discussions about a grant from the feds for an additional 100 million. Q. And where do those discussions stand now? A. I don't know the current status of that. Q. I mean, has the City hasn't gotten this money yet and incorporated it into its forecast, I take it? A. I don't know. I'd have to research it. Q. Okay. Can you describe for me any more	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	JOHN W. Well, the package of bills did have additional money that would support the bankruptcy related to, you know, what was happening with DIA. So there were additional moneys as part of a package of bills. O. And the City could have proposed additional measures in the legislative package to increase tax rates if it wanted; correct? A. Yes. The City could have proposed anything. O. And do you have any idea why this 1 take it the City didn't propose additional revenue-generating measures other than what's in the legislation; correct? A. I know that there were discussions about additional revenue measures, and it was very unlikely that any additional measures would pass based on my discussions with the Mayor. O. What additional revenue measures were discussed?
