Summary description of work performed
As required by paragraph 13 of the Fee Review Order

Introduction / Background

The City engaged Miller Buckfire based upon its restructuring expertise as well as its capital markets knowledge, financing skills and mergers and acquisitions capabilities, some or all of which are expected to be required during Miller Buckfire's engagement, and were important factors in determining the amount of the various fees set forth in Miller Buckfire's Contract. The fee structure was agreed after extensive arms-length negotiations and reduction by Miller Buckfire of the fees originally sought. In June 2014 Miller Buckfire's responsibilities were further expanded and the transaction fees structure was renegotiated to a single fixed transaction fee, reduced by amounts paid before the transaction is consummated, that is substantially less than Miller Buckfire's potential aggregate fees would have been should the several transactions have been consummated.

In reaching its agreement with Miller Buckfire, the City recognized that Miller Buckfire does not maintain detailed written time records in the normal course of providing financial advisory and investment banking services to its clients and that Miller Buckfire does not bill its clients based on the number of hours expended by its professionals. Rather, the Contract reflects an understanding that the ultimate benefit of Miller Buckfire's services cannot be measured merely by reference to the number of hours to be expended by Miller Buckfire's professionals in the performance of such services. Rather, the Contract was agreed in anticipation that a substantial commitment of professional time and effort will be required of Miller Buckfire and that the actual time and commitment required of Miller Buckfire and its professionals to perform its services would vary substantially from week to week or month to month, creating "peak load" issues for the firm.

Miller Buckfire respectfully submits that (i) the professional services performed by Miller Buckfire are necessary and appropriate and substantially benefit the City and (ii) the compensation requested in this application is in accordance with the terms of Miller Buckfire's Contract. The terms and provisions of the Contract appropriately reflect (i) the nature of the services to be provided by Miller Buckfire and (ii) the fee structures typically utilized by Miller Buckfire and other leading financial advisory and investment banking firms, which do not bill their clients on an hourly basis and generally are compensated on a transactional basis. The fee structure creates a proper balance between fixed, monthly fees and transaction fees based on the consummation of specifically identified transactions. In addition, Miller Buckfire's compensation is fully justified and reasonable based upon the (i) complexity of issues presented, (ii) skill required to perform the financial advisory services properly, (iii) preclusion of other similar employment, (iv) customary fees charged to clients in out-of-court and in-court situations for similar services rendered, (v) time constraints required by the exigencies of the City's case, (vi) experience, reputation and ability of the professionals rendering services, (vii) time and labor required and (viii) and the requirement that specifically identified transaction be consummated prior to payment of any transaction based fees.

Employee Summary

The names in the chart below reflect Miller Buckfire bankers who spent more than five hours on the Detroit engagement during the month of June. Additionally, the chart reflects an estimated percentage of each banker’s work time that was spent on the engagement during the month.

To provide background, Miller Buckfire will typically staff one Managing Director, one Director or Vice President, one Associate and one Analyst on a particular engagement. Additionally, bankers are typically staffed on two live engagements at any time and have other internal firm responsibilities as well. Based on the above, we would expect that a normal engagement would feature four bankers, and that they would each be categorized in the “25-50%” section, on average, over the course of the engagement.

Task Time Requirements

In order to provide additional clarity on the work Miller Buckfire performed, Miller Buckfire has assigned one of the following classifications for each task category to reflect the amount of banker time required to complete the task:

- **Moderate Time:** Estimated 25-50 banker hours
- **Extensive Time:** Estimated 50-100 banker hours
- **Very Extensive Time:** Estimated 100+ banker hours

Please note that if any task category required less than ten banker hours to complete, Miller Buckfire excluded it from the work description summary.

Miller Buckfire does not bill or record hours as standard practice, nor does Miller Buckfire’s engagement letter contemplate Miller Buckfire will be required to record hours and provide hourly records.

Notes:

1. EY performs a role for the City that has required and continues to require significant investment of time by several senior professionals. Due to the City's outdated financial reporting systems and the fact that the City is still in the process of hiring additional senior personnel in the Finance Department, active involvement by certain senior EY professionals provides the City with essential information and experience needed to support daily operation and, ultimately, to enable the City's restructuring. To the extent that these functions are undertaken by junior EY staff, senior professionals are needed to oversee and to confirm their work, and to provide input to the City's management.
2. In general, some of the tasks performed by EY are repetitive on a weekly or even daily basis, depending on the task. The time required to perform these tasks is often the same or closely so, which may result in the recording of the same time for the same or for similarly-worded entries on multiple days.

City of Detroit, Michigan, Detroit Chapter 9 Task Descriptions for Dentons

Overview. The Official Committee of Retirees ("Committee") was appointed by the Office of the United States Trustee on August 23, 2013. The Committee represents the general interests of approximately 22,500 retirees with vested pension benefits and OPEB (other post employment benefits) that the City estimated to be a total \$3.5 billion and \$5.6 billion, respectively with bankruptcy case filings. As a result, claims related to retirees account for more than half of the City's asserted \$18 billion of debt, and more than 66% of claims if the alleged \$6.5 billion if secured bonds are excluded.

After being retained, the Committee interviewed several law firms to serve as its principal legal counsel. On August 28, 2013, the Committee retained Dentons US LLP ("Dentons"). There are three key engagement partners Sam J. Alberts, Claude Montgomery and Carole Neville, the second of whom was still technically with Dentons' affiliate Salans FMC SNR Denton Europe LLP ("Salans"). On October 1, 2013, the New York offices of Dentons and Salans combined. As such, separate fee applications for Dentons and Salans were submitted for the months of August and September 2013, and any single fee application for Dentons have been and continue to be submitted for the period beginning October 2013.

As a general matter, the representation of the Committee is being conducted by three key engagement Dentons partners identified above. These partners, often oversee specific issues and tasks, and often oversee other attorneys on tasks.

We have read and understand the terms of the Court's Fee Review Order dated September 11, 2013 ("the Order"). We have complied with the Order except as expressly noted in this transmittal.

Matter: Eligibility

Eligibility of the City to be a debtor under chapter 9 is the central gating issue in this and almost all other chapter 9 cases. In this case, the issue of eligibility, and the Committee objection to it, was one of, if not the most significant tasks for the first several months of this case. The Committee's efforts were rendered both more complicated in some respects, and easier in others, by the fact that more than 100 different parties filed objection to the City's eligibility. In addition to complex factual discovery, the Committee raised several procedural, legal and constitutional challenges to eligibility, as well as seeking withdrawal of the reference to the District Court on certain legal issues. The Eligibility task was lead by Claude Montgomery, with assistance from several attorneys, including partners Carole Neville, Arthur Rugger and Anthony Ullman on trial and appellate matters, Leah Bruno on general discovery matters and Robert Millner on pension discovery matters. Also providing significant assistance were counsel Paul Gunther and associates Joseph Selby and Christopher Soper on brief writing and research. Services during this period include preparation coordination and filing appellate papers, including drafting and revising the Committee's appellate brief in reply to the opposition briefs of the City, State, Michigan Attorney General and the United States Attorney General to the Sixth Circuit Court of Appeals, which in total resulted in 179.40 hours of work at a value of \$106,226.00.

Matter: Mediation

Soon after the Chapter 9 filing by the City, Bankruptcy Judge Rhodes ordered various parties, including the Committee, to participate in intense and extensive mediation efforts. Such mediation was referred to the Honorable Gerald E. Rosen, Chief United States District Court Judge for the Eastern District of Michigan, who in turn has availed himself of the several other mediators, including the Honorable Judge Wiley Y. Daniel, Senior United State District Judge for the District of Colorado, the Honorable Victoria A. Roberts, United States District Court Judge for the Eastern District of Michigan, the Honorable Elizabeth Perris, United States Bankruptcy Judge for the District of Oregon, and Eugene Driker, a well known Detroit mediator and lawyer. The committee was only involved in two sets of mediations. One involving pension issues and the other involving healthcare. Because the connected nature of these matters, these mediations are contained under the same task code similar to the tasking by the City. Carole Neville and Claude Montgomery are principally, but not exclusively responsible for pension related mediation and Sam J. Alberts is principally but not exclusively responsible for mediation related to OPEB (other post employment benefits). Carole Neville is also principally responsible for mediation relating to the assumption motion and forbearance agreement with assistance from Claude Montgomery. Total time for this task in this fee period was 4.30 hours with a work value of \$3,475.00.

Matter: Pension

According to the City, unfunded pension liability to retirees approximates \$3.5 million, which the City asserts will necessarily result reductions in pension benefit payments to current and future retirees. This threat has been made notwithstanding that pensions are specifically protected under the Michigan Constitution. As such, the protection and preservation of pension is a critical issue for the Committee. Claude Montgomery and Carole Neville have the analysis lead for this project and partner Michael Maryn provided substantial assistance. The calculation of pension liability for purposes of voting and retiree recovery under the plan of adjustment is an ongoing effort. For this month, time on this matter totaled 30.20 hours at a value of \$24,998.50.

Invoice No. 1577366

Matter: OPEB

The City asserts that unfunded OPEB obligations to retirees totals \$5.6 billion, making it the largest claim in the case. OPEB largely (although not exclusively) consists of health care benefits. The issue of threatened reductions to OPEB are of critical importance to retirees. From the outset the case, the City has stated its intention to substantially reduce OPEB health care, and to eliminate dental, eye care and life insurance benefits to retirees. In fact, under the City's original plan (still in affect), the City seeks to reduce annual OPEB spending from approximately \$180 million to retirees to \$30 million. Sam J. Alberts is the lead partner on these efforts. On OPEB litigation matters, assistance was provided by Dan Barnowski, Daniel Morris and Chris Soper (among others). On OPEB health care issue, assistance was provided by John Feore, and on trust structures, Michael Maryn. The calculation of OPEB liability and the treatment of OPEB under the Plan are ongoing efforts, involving all Committee professionals. Total time for this period was 73.80 hours with a value of \$49,122.50.

Invoice No. 1577366

Matter: Media

This matter includes review of media reports, as well as Committee contact and responses to media inquiries. Because of the City's efforts to position the case using media, the Committee was compelled to respond in kind to both inform its constituents of its efforts and to influence certain case events. The case is very closely watched by the local and national media, which influences the retirees and other parties in interest including the legislators. The partner in charge of media is Sam Alberts, with assistance originally from Tom Ochs, a media specialist, and later Amy Maslin, with further help from Daniel Pina, a paralegal. For this month, total time was 53.30 hours at a value of \$16,605.00.
