

December 9th, 2013

(CLASS - ACTION)
OBJECTION / RESPONSE

To: In re: EASTMAN KODAK COMPANY, et al., Reorganized Debtors.

From: Valentin Ortega representing myself and the remaining of the Creditors of Eastman Kodak Co., who are claimed by Eastman Kodak Co. in exhibit A and B of their objection in in the Objection packet as being Equity Interest Claims and Redundant Claims.

Case # 12-10202 (ALG)

CLAIM # 6715

I feel that Eastman Kodak Company's Top Management is trying to take advantage of the Creditors and or the shareholders who were investing in the company during their restructure process. I feel this way because the Internal Managers hired excellent attorneys and corporate law firms who know the corporate law perfectly and know how to polish every angle of the law and articulate to manipulate and win cases in the courts of law. Prime examples are; all the court VICTORIES Eastman Kodak Co. had during restructuring. All the lawsuits the company won were acceptable because they were defending the royal patents of Kodak. Now, the management of the company is being blind and getting too greedy; they are were not satisfied with all the money they won in the courts against other companies. They also want to leave their United States Investors or Original Shares Holders without their Investment Money!

According to business and corporate law; the holders of Original Shares or Investors of Original Shares are the ones who own the company, because the company choose to go public and when they did a long time ago their original IPO or Public Offering stock price of the Original Shares has been volatile from over \$100 dollars per share to \$.03 cents. Original Shareholders are the ones who own the company and the investors who have a capital stake in the Empire.

Management, the CEO and the Board of Directors are employees of the company that somehow get a monetary compensation for their services. The CEO and management are direct employees and the Board of Directors are creditable and reputable business people who are indirectly hired independently or contracted; to run, plan and make most of the decision making that takes place in Eastman Kodak Co. They do not own the company 100%; they may have an Investment in the company just like investors have and that is legitimate for employees and directors to own a stake in the company they serve or work for. My stake or investment in the company is as similar to the one of the Top Managers of KODAK. I just don't understand why they want steal my shares and not grant me what I

121020213121800000000002

deserve for working hard and saving every dollar I could have saved in my lifetime; I invested it all in KODAK. In deed the real owners of the company are the ones who own and have retained the last Original Shares of the company. In this case, KODAK is pointing me out as the majority shareholder in Exhibit A of the objection packet with 2,500,000 or 2.5 million shares outstanding illustrated a value of \$283,960.80 on September 3rd 2013 with the same amount of shares on the common stock re-open with a value of \$70,475,000.00 or \$70.475.00 million dollars on September 23rd, 2013.

When management cancelled the stock I did not get reimbursed or refunded my investment money right away or the amount of shares I hold. I did not even get the right to vote or any kind of notice from the KODAK Company that the original stock was going to cancel for twenty days. The company is a survivor worldwide and on Wall Street. Management is not satisfied with overcoming all the obstacles during restructuring and living the joy of their recent success, up to December, 2013. They also want to cut me out and other Creditors or Investors and not pay us our Capital Investment that we have invested in the company. While management and the rest of the world thought KODAK was going down the drain, I was the one person who was praying every day and wishing that the company would come out VICTORIOUS from restructuring. I don't think that management is being fair with all the investors of the Undervalued Original Stock of the company. The Current Market Value of the stock is \$28.19 in 2.5 million shares is about \$70,475,000.00 or \$70.475 million dollars. Right now all I am asking is that the company pays me back my original investment of \$283,960.80 if they don't want to pay me any more money. The ambition of management is causing them to manipulate and polish with detail the business law to try rob us, and that's Embezzlement.

Upon, Eastman Kodak upcoming from restructuring the CEO and the Board of Directors of the Company knew the stock price was going to skyrocket because investors around the world were waiting for that day to purchased shares at a low cost and investors like my-self and others on Exhibit A and B were going to make a lot of money with the automatic rise of the stock price. So, on that same day they of September 3rd 2013 when they emerged from restructuring they cancelled the trading stock symbol name or ticker of (EKDKQ) Eastman Kodak Co., for twenty days until September 23rd 2013 then they activated a new trading stock symbol of (KODK) Eastman Kodak Co. Management probably did an internal merger or acquisition with KODAK in the country of MEXICO or any other US Company, because KODAK in MEXICO is no longer trading and an internal merger might have caused the stock price of KODAK to rise from .03 cents on September 3rd 2013 to opening price of \$19.25 on September 23rd 2013. At the end of this letter I have attached proof of the changes in ticker names after the cancellation of the stock and the price adjustment from the undervalued \$.03 a share on September 13th 2013 to their Fair Market Value of \$19.25 dollars per share on re-open day of September 23rd, 2013. The companies top management during the 20 day cancellation of the stock could have also adjusted the Internal Accounting with all the money they made winning the lawsuits and selling some of their patents. I insist, that by management trying to do this move. The company is trying to avoid sustaining the shares of the Original Shareholders that were undervalued in the United States; we were the ones who held loyal and resisted thru all the turmoil the company went thru during restructuring.

Kodak in Mexico had a stock rise of \$12 US dollars when Carlos Slim, the Investor from Mexico at one point several months ago bought millions of shares on the Mexican Stock Exchange when KODAK USA was in restricting process. In my case I am the largest stake holder from Exhibit A, according to Eastman Kodak Co., holding 2,500,000 shares or 2.5 million with the last 500,000 purchased on September 3rd 2013, on the same day they emerged from restructuring. I being the largest stakeholder

was not notified by the Board of Directors or the CEO of the company that such stock cancellation was going to take place they did not ask for my vote! When a company chooses to go Public and sells stock the stock holders become the owners of the equity and values of the company. In my case I have ownership or a large stake of Eastman Kodak Company because the company was restructuring to solve a lot of their problems and sell some of their patents for millions and billions of dollars.

Eastman Kodak Company never went broke, instead during restructuring they won a lot of lawsuits, sold patents and downsized to cut down on their costs and be more competitive. In Essence, they made a lot of money and during this time I was investing in the company with a lot of optimism hoping and praying that the US and Global Economy would recover and that by the same token Eastman Kodak Company would eventually end their restructuring process and that I by investing in the company would make a profit upon their success. At this point I am not thinking about making a profit with Eastman Kodak Co. I feel like I am going to have a heart attack because I have not seen my 2.5 million Kodak shares in my Wells Fargo Advisors account and or the \$283,960.80 that I have invested in the company in the last three months, since September 3rd 2013. Note that I am not intending to sue Eastman Kodak Company for the 2,500,000 shares they owe me at the Current Market Value of (EKDKQ=KODK) of \$28.19 it would be a lot of money almost \$7,475,000.00 or \$70.475 million dollars. I just want a settlement on my claim to be paid in full for the \$283,960.80, so I can see my family's life time savings back in our account again and prevent me from getting a heart attack.

Dear reader do your best to understand my message in this letter and take my position for one day to see how you would personally feel what I am feeling every day that goes by, since September 3rd, 2013. By understanding me you will realize if I should or should not get paid in full for my CLAIM # 6715 on the objection I am submitting. There is a saying that goes like this "don't raise crows because they will attempt to take out your eyes with their beak" In this case that's what the Management of Eastman Kodak Co. is trying to do with the last Original Shares Holders or Owners Equity and Value Owners of the company and or Creditors.

Thank you, for reading my objection and a witness of my CLAIM.

Sincerely,

Valentin Ortega

Kodak to List Common Stock on New York Stock Exchange

To Trade under Symbol KODK

Press Release: Eastman Kodak Company -- Tue, Oct 29, 2013 3:32 PM EDT

ROCHESTER, N.Y.--(BUSINESS WIRE)--

Eastman Kodak Company will list its common shares on the New York Stock Exchange (NYSE) under the symbol "KODK" with trading beginning on Nov. 1, 2013.

"This is an important moment for the new Kodak," said Antonio M. Perez, Kodak's Chief Executive Officer. "We are pleased to once again be listed on the NYSE. The change in our symbol reflects that we are a new company that is focused on business-to-business products and services, well-capitalized and firmly committed to delivering value to our shareholders and innovation to our customers."

"We're delighted to welcome the new Kodak to the NYSE community," said Duncan Niederauer, CEO, NYSE Euronext. "Kodak is an outstanding B2B technology company, and we're excited to partner with them for their long-term growth and success. The company's listing on the NYSE underscores our strong momentum in technology listings and the value of our brand and innovative market model. We are proud to be a small part of Kodak's historic turnaround, and look forward to serving the company and its shareholders in the years ahead."

The new Kodak is a global technology company offering breakthrough solutions and professional services in the packaging, graphic communications and functional printing markets. Kodak leverages its technical expertise to drive change in the industry, with products like high-speed KODAK PROSPER Presses and Imprinting Systems, KODAK FLEXCEL Systems packaging solutions, and KODAK SONORA XP Process Free Plates.

Kodak builds on its direct sales by partnering with other innovators, and in recent weeks, has formed key collaborations, including with Bobst in the packaging market. Kodak also has joint initiatives with Timsons for digital printing and with UniPixel and Kingsbury for the production of functionally printed touch-screen sensors.

Upon Kodak's emergence from Chapter 11 restructuring on Sept. 3, 2013, the then-outstanding stock of the company was cancelled, and the company issued new common stock that has been trading since that time under the symbol "EKOD" on over-the-counter venues. Upon listing on the NYSE, the new common stock will cease to be quoted on over-the-counter venues.

About Kodak

Kodak is a technology company focused on imaging for business. Kodak serves customers with disruptive technologies and breakthrough solutions for the product goods packaging, graphic communications and functional printing industries. The company also offers leading products and services in Entertainment Imaging and Commercial Films. For additional information on Kodak, visit kodak.com.

CAUTIONARY STATEMENT PURSUANT TO SAFE HARBOR PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

This document includes "forward-looking statements" as that term is defined under the Private Securities Litigation Reform Act of 1995. Forward-looking statements include statements concerning the Company's plans, objectives, goals, strategies, future events, future revenue or performance, capital expenditures, liquidity, financing needs, business trends,

and other information that is not historical information. When used in this document, the words “estimates,” “expects,” “anticipates,” “projects,” “plans,” “intends,” “believes,” “predicts,” “forecasts,” or future or conditional verbs, such as “will,” “should,” “could,” or “may,” and variations of such words or similar expressions are intended to identify forward-looking statements. All forward-looking statements, including, without limitation, management’s examination of historical operating trends and data are based upon the Company’s expectations and various assumptions. Future events or results may differ from those anticipated or expressed in these forward-looking statements. Important factors that could cause actual events or results to differ materially from these forward-looking statements include, among others, the risks and uncertainties described in more detail in the Company’s Annual Report on Form 10-K for the year ended December 31, 2012, and Quarterly Reports on Form 10-Q for the quarters ended March 31, 2013, and June 30, 2013, under the headings “Business,” “Risk Factors,” and/or “Management’s Discussion and Analysis of Financial Condition and Results of Operations–Liquidity and Capital Resources,” and those described in filings made by the Company with the U.S. Bankruptcy Court for the Southern District of New York and in other filings the Company makes with the SEC from time to time, as well as the following: the Company’s ability to improve and sustain its operating structure, financial results and profitability; the ability of the Company to achieve cash forecasts, financial projections, and projected growth; our ability to achieve the financial and operational results contained in our business plans; the ability of the Company to discontinue or sell certain non-core businesses or operations; the Company’s ability to comply with the covenants in its credit facilities; our ability to obtain additional financing if and as needed; the potential adverse effects of the Chapter 11 proceedings on the Company’s liquidity, results of operations, brand or business prospects; the Company’s ability to fund continued investments, capital needs, restructuring payments and service its debt; the resolution of claims against the Company; our ability to attract and retain key executives, managers and employees; our ability to maintain product reliability and quality and growth in relevant markets; our ability to effectively anticipate technology trends and develop and market new products, solutions and technologies; and the impact of the global economic environment on the Company. There may be other factors that may cause the Company’s actual results to differ materially from the forward-looking statements. All forward-looking statements attributable to the Company or persons acting on its behalf apply only as of the date of this document and are expressly qualified in their entirety by the cautionary statements included in this document. The Company undertakes no obligation to update or revise forward-looking statements to reflect events or circumstances that arise after the date made or to reflect the occurrence of unanticipated events.
