Dear Honorable Judge Marvin Isgur, US Bankruptcy Court Judge,

We are pleased to present you with this petition affirming this statement:

David J. Bradley, Clerk of Court

"We, the undersigned, hereby petition the Honorable Judge Marvin Isgur to consider the BEST bid as opposed to the highest bid in the case 18-22836 (MI) of the bankruptcy of Neighbors Legacy Holdings.

Although your honor's decision in this matter is just and final, we implore that you hear and substantiate these pleas set before you. We the physicians and employees of Neighbors Emergency Centers are a family. Collectively speaking, we believe that a decision based purely on highest bid is not the BEST course for those of us who stand to lose more than just a business identity, but our entire way of life.

The bidding process in the case of Neighbors Legacy Holdings et.al. was concluded yesterday with the winner appearing to be a break-up of the company to multiple bidders. We believe that the interests of all parties concerned are best served by retaining the enterprise intact as a whole entity. We have also been made aware that some of the winning bidders are planning to shut down current operating centers which will end up costing jobs to lots of employees and physicians. We ask that you consider the HIGHEST bid to keep the the entire enterprise as a whole before making a decision based on dollars alone. Your honor has the ability and responsibility to pick the highest and BEST Bid. In this situation, the highest dollar amount is not necessarily the BEST. We are requesting you to please consider our plea. Please consider all efforts to keep the entire company intact for the sake of many hard working people. "

Attached is a list of individuals who have added their names to this petition, as well as additional comments written by the petition signers themselves.

Sincerely,
Kris Ramos

I'm my short tenure with Neighbors Telehealth I have bore witness to a voracious seedling in our industry. The Neighbors Family has quickly established itself as a bountiful culvert in which we both quench our desire to provide access to emergency care and provide excellence in doing so. Local people, providing local services and ancillaries to a community in need. Breaking up this community resource for the sole purpose of meeting fiduciary shortcomings would be a tragedy. It makes more sense to keep serving the local communities with local talent ...than to provide a fragmented assortment of hodgepodge practitioners. I know that my Neighbors Family will continue to be the BEST NEIGHBORS EVER..if given the opportunity to promulgate their servitude into tomorrow.

I join in the signing of this petition in the hopes that you will look favorably on the employees of our Neighbors facilities collectively, and hear our plea to keep us together and not allow the breaking up of our family. We have put our hearts into these facilities and pray you will see fit to give us the opportunity to succeed together without tearing us apart. Sincerely, Michelle Hernandez RN Amarillo facility.

I have never been more vested in a job. These are not just our coworkers across texas, these people are my family. Our patients deserve us to succeed and tearing us apart only weakens this industry. Please Sir, allow us to finish what we started.

This is what is best for our company and the staff. We have fought for this long as a family, why should we be torn apart. Very much like children in a divorce, they are so much better as a family. As a large group we can rise from the ashes. Please allow us to succeed as a group.

Neighbors has always been a close family, it would be a smoother process for all involved if we can keep it that way.

The success of a company is its people. After many challenges, the remaining are a core group of family that should no longer be dismantled further.

9yrs of service. A day one employee. This company was built on family value. If there is even the slightest possibility of keeping us together, please consider it. We love and serve our community as a family.

I represent the physicians I recruited to a physician owned emergency center. Although corporations(like Tenant, HCA) have a fiduciary duty to their shareholders for profit, as a profession, physicians duty and bottom line is patient care. Texas is a anti-corporate practice of medicine state . I see hardly any way my center in Harlingen and Brownsville could continue the initial Vision under a Tenant banner. Maybe the CEO can convince me otherwise. We all have our story to tell. The second runner up (Nitya, CEO Swapnil Agarwal) was going to keep our family together. We have a voice and the Honorable Judge should here it. Please relay your heartfelt story so he can hear it. Sincerely Joe Ybarra MD Founder of ACEP FEC Section.

Your Honor, Please consider the highest bid for ALL of the centers. We have already been affected negatively by poor business decisions. The highest monetary bid does not necessarily mean the best outcome for so many employees. We implore you to reconsider as this decision could negatively affect hundreds of hard working individuals.

I agree the financial difference between the breakup bid price and the intact bid price is trivial. The breakup causes great hardship to many physician and non-physician alike. The highest and Best bid is one that keeps the company intact. Certainly expenses will be cut and there will be pain but vastly less. A brighter future for all is there with an intact company.

Too many employees and families lie in the crosshairs of what is righteous and what is financially acceptable for a few debtors. We have all put alot of blood, sweat and tears into this company and will continue to do so if our new ownership can keep the NEIGHBORS' FAMILY WHOLE!
