I followed broker recommendations before buying stock in the company that split Paragon from ~~the~~ it. Noble.

● I was told the split was because some ~~employees~~ execs of parent company wished to go their separate way, continuing deepwater exploration.

that was fraud. Everyone now knows they knew a downturn was ahead because of world oil glut & growth in alternative energy.

● Therefore, I ask you to stipulate any new company formed after their bankruptcy be required to award pro-rata stock to those of us who have lost all because of their fraud.
