General Notes to the MOR:

Debtor-in-Possession Financial Statements

This Monthly Operating Report ("MOR") has been prepared solely for the purpose of complying with the monthly reporting requirements applicable in the bankruptcy cases and is in a format acceptable to the Office of the U.S. Trustee. The financial information contained herein is unaudited, preliminary, limited in scope, and as discussed below, may not comply with accounting principles generally accepted in the United States of America ("U.S. GAAP") in all material respects. All results, other than as noted, are being presented on a consolidated basis due to the complexity of intercompany transactions among Debtor entities and system limitations that prevent isolating balance sheet and cash activity among distinct Debtors and non-debtors.

The unaudited consolidated financial statements have been derived from the books and records of RM Wind-Down Holdco, LLC and related Debtors and non-debtors ("RM") on a consolidated or consolidating basis, as applicable. No current activity exists for the non-debtors and existing balances on MOR-3 are immaterial with respect to the consolidated balances. The information furnished in this report includes primarily normal recurring adjustments, but not all of the adjustments that would typically be made for the quarterly and annual financial statements to be in accordance with U.S. GAAP. Furthermore, the financial information contained herein has not been subjected to the same level of accounting review and testing that RM Holdco, LLC and related Debtors and non-debtors apply in the preparation of their quarterly and annual financial information in accordance with U.S. GAAP. Accordingly, upon the application of such procedures, RM believes that the financial information may be subject to change, and that these changes could be material.

The results of operations contained herein are not necessarily indicative of results which may be expected from any other period or for the full year and may not necessarily reflect the consolidated results of operations, financial position and schedule of receipts and disbursements of RM in the future. RM cautions readers not to place undue reliance upon the MOR. There can be no assurance that such information is complete and the MOR may be subject to revision.

Intercompany Transactions

Due to the cash management structure of RM, intercompany activity is material among Debtor entities making an isolated entity breakout within MOR-1 and MOR-3 limited. Intercompany transactions between Debtors have been nearly eliminated in the financial statements contained herein. The unaudited consolidated financial statements presented in MOR-2 and MOR-3 also include elimination entries for intercompany balances related to Non-debtor affiliates.

Liabilities Subject to Compromise

As a result of the chapter 11 filing, the payment of pre-petition indebtedness is subject to compromise or other treatment under a plan of reorganization or liquidation. The determination of how liabilities will ultimately be settled and treated cannot be made until the bankruptcy court approves a chapter 11 plan. Accordingly, the ultimate amount of such liabilities is not determinable at this time. RM has segregated pre-petition liabilities that are subject to compromise to be reported at the amounts expected to be allowed, even if they may be settled for lesser amounts. The amounts currently classified as liabilities subject to compromise are preliminary and may be subject to future adjustments depending on bankruptcy court actions, first day motions that allow certain pre-petition liabilities to be paid in the ordinary course, further developments with respect to disputed claims, determinations of the secured status of certain claims, the values of any collateral securing such claims, assumption or rejection of executory contracts, impact of an asset purchase agreement and liabilities being assumed by the buyer, and continued reconciliation and other events.

Restructuring Costs

Expenses and income directly associated with the chapter 11 filings have been reported separately in the income statement and balance sheet as restructuring expenses/accruals, except for interest and expenses associated with RM's Debtor-in-Possession Financing (included in interest expense). Restructuring expenses include post-petition expenses and payments related to legal advisory and representation services, other professional consulting and advisory services including claims reconciliation, US Trustee fees, expenses associated with retention of RM employees per court approval, changes in liabilities subject to compromise recognized as there are changes in amounts expected to be allowed claims, and all other items related to the chapter 11 process.

363 Sale Transaction

On September 28, 2018, the Court entered that certain Order (I) Approving Asset Purchase Agreement ("APA") and Authorizing the Sale of Certain Assets of the Debtors Outside of the Ordinary Course of Business, (II) Authorizing the Sale of Assets Free and Clear of All Liens, (III) Authorizing the Assumption and Assignment or Rejection of Certain Executory Contracts and Unexpired Leases and (IV) Granting Related Relief [D.I. 288], thereby approving the sale (the "Sale") of the Assets and the assumption and assignment of certain executory contracts and unexpired leases to FM Restaurants (PT), LLC, pursuant to the Stalking Horse APA. The Sale closed on October 29, 2018. Per the APA the Purchaser is to provide to RM an allocation of the purchase price proceeds among the assets included in the sale 60 days after the sale close date. Subsequently, the date has been extended beyond the end of the designation rights period. Until such time the allocation is provided and approved by RM, the proceeds will be allocated to RM Wind-Down Opco LLC. As part of the funding of the transaction, the purchaser credited from the purchase price amounts owed on their portion of the funded DIP (\$2.75M+ accrued interest), Senior Secured Term Loan (\$ 12.353M), and their remaining purchase deposit (\$1.925M).

Bankruptcy Dismissal

On April 30, 2019, the Court entered an Initial Order (1) Authorizing the Debtors to Make Distributions to Claimants Holding Allowed First Priority Secured Claims and Allowed 503(b) Claims; (ii) Authorizing the Debtors to Abandon Certain Property; (iii) Dismissing the Debtors' Chapter 11 Cases; (iv) Establishing Procedures for the Allowance and Payment of Professional Fees; and (v) Granting Related Relief ("Initial Dismissal Order", Docket #635). The debtors have paid all outstanding fees owed to the Office of the United States Trustee and, upon filing this MOR, have satisfied the conditions precedent set forth in the Initial Dismissal Order for dismissal of these Chapter 11 Cases. The Debtors have submitted or will submit a final dismissal order contemporaneously with the filing of this MOR.

RM Wind-Down Holdco LLC and related Debtors and non-debtors Consolidated Balance Sheet (Unaudited)

Period Ending

12/31/2019

Notes to the MOR-3:

This Monthly Operating Report ("MOR") has been prepared solely for the purpose of complying with the monthly reporting requirements applicable in the bankruptcy cases and is in a format acceptable to the Office of the U.S. Trustee. The financial information contained herein is unaudited, preliminary, limited in scope, and as discussed below, may not comply with accounting principles generally accepted in the United States of America ("U.S. GAAP") in all material respects. All results are being presented on a consolidated basis due to the complexity of intercompany transactions among Debtor entities and system limitations that prevent isolating activity among distinct Debtors and non-debtors.

The unaudited consolidated financial statements have been derived from the books and records of RM Wind-Down Holdco, LLC and related Debtors and non-debtors ("RM") on a consolidated or consolidating basis as applicable. No activity exists for the non-debtors and existing balances on MOR-3 are immaterial with respect to the consolidated balances. The information furnished in this report includes primarily normal recurring adjustments, but not all of the adjustments that would typically be made for the quarterly and annual financial statements to be in accordance with U.S. GAAP. Furthermore, the financial information contained herein has not been subjected to the same level of accounting review and testing that RM Holdco, LLC and related Debtors and non-debtors apply in the preparation of their quarterly and annual financial information in accordance with U.S. GAAP. Accordingly, upon the application of such procedures, RM believes that the financial information may be subject to change, and that these changes could be material.

The results of operations contained herein are not necessarily indicative of results which may be expected from any other period or for the full year and may not necessarily reflect the consolidated results of operations, financial position and schedule of receipts and disbursements of RM in the future. RM cautions readers not to place undue reliance upon the MOR. There can be no assurance that such information is complete and the MOR may be subject to revision.

Intercompany Transactions

Due to the cash management structure of RM, intercompany activity is material among Debtor entities making an isolated entity breakout within MOR-1 and MOR-3 limited. Those schedules are being presented on a consolidated basis. Intercompany transactions between Debtors have been nearly eliminated in the financial statements contained herein. The unaudited consolidated financial statements presented in MOR-2 and MOR-3 also include elimination entries for intercompany balances related to Non-debtor affiliates.

Liabilities Subject to Compromise

As a result of the chapter 11 filing, the payment of pre-petition indebtedness is subject to compromise or other treatment under a plan of reorganization or liquidation. The determination of how liabilities will ultimately be settled and treated cannot be made until the bankruptcy court approves a chapter 11 plan. Accordingly, the ultimate amount of such liabilities is not determinable at this time. RM has segregated pre-petition liabilities that are subject to compromise to be reported at the amounts expected to be allowed, even if they may be settled for lesser amounts. The amounts currently classified as liabilities subject to compromise are preliminary and may be subject to future adjustments depending on bankruptcy court actions, first day motions that allow certain pre-petition liabilities to be paid in the ordinary course, further developments with respect to disputed claims, determinations of the secured status of certain claims, the values of any collateral securing such claims, assumption or rejection of executory contracts, impact of an asset purchase agreement and liabilities being assumed by the buyer, and continued reconciliation and other events.

Restructuring Costs

Expenses and income directly associated with the chapter 11 filings have been reported separately in the income statement as restructuring expenses, except for interest and expenses associated with RM's Debtor-in-Possession Financing (included in interest expense). Restructuring expenses include post-petition expenses and payments related to legal advisory and representation services, other professional consulting and advisory services including claims reconciliation, US Trustee fees, expenses associated with retention of RM employees per court approval, changes in liabilities subject to compromise recognized as there are changes in amounts expected to be allowed claims, and all other items related to the chapter 11 process that are non-reoccurring.

Bankruptcy Dismissal

On April 30, 2019, the Court entered an Initial Order (1) Authorizing the Debtors to Make Distributions to Claimants Holding Allowed First Priority Secured Claims and Allowed 503(b) Claims; (ii) Authorizing the Debtors to Abandon Certain Property; (iii) Dismissing the Debtors' Chapter 11 Cases; (iv) Establishing Procedures for the Allowance and Payment of Professional Fees; and (v) Granting Related Relief ("Initial Dismissal Order", Docket #635). The debtors have paid all outstanding fees owed to the Office of the United States Trustee and, upon filing this MOR, have satisfied the conditions precedent set forth in the Initial Dismissal Order for dismissal of these Chapter 11 Cases. The Debtors have submitted or will submit a final dismissal order contemporaneously with the filing of this MOR.

Explanations

- As part of the sale transaction, the Purchaser transferred all employees that existed as of the sale close date to their payroll, purchased substantially all of the assets, and took possession of all the real estate leases. In addition, the Purchaser assumed all liabilities with respect to the transferred employees and assumed all obligations with respect to Worker's Compensation among other assumed liabilities. In anticipation of closing the sale, the Purchaser either assumed or established replacement insurance for operations - covering all remaining facilities (whether assumed as of such date or not). As a result, the Debtor cancelled all of its requisite insurance policies and workers comp coverage as of the sale date. The existing D&O insurance went into a tail run-off period. RM purchased a new 1 year tail policy effective on 10/29/18 which was subsequently extended through 12/31/2019.
